

**Erratum**

## **Erratum to: Pressure pain perception at the injured foot: the impact of diabetic neuropathy**

**T. Wienemann, E.A. Chantelau, A. Richter**

Diabetic Foot Clinic, Department of Metabolic Diseases, Heinrich-Heine-University Düsseldorf, Germany

---

In our article, “Pressure pain perception at the injured foot: impact of diabetic neuropathy”, J Musculoskelet Neuronal Interact 2012;12(4):254-261. The foot-muscle studied was incorrectly termed musculus hallucis longus. The correct term is musculus abductor hallucis.
